

BUILDING AN ECONOMY: ECONOMIC CUBE ACTIVITY

SIDE 1: PRIMARY INDUSTRY

What is your primary industry?

How will you make \$ off of your resource? Who will you sell it to?

Include a map of where your natural resource is located in the world.

You will need to research your natural resource and include a map of where it is located

SIDE 2: SECONDARY INDUSTRY

What will you turn your natural resource into?

Who will you sell it to (what countries are the product shipped to)?

Include a picture of the product

SIDE 3: TERTIARY INDUSTRY

Where will products be sold to the consumer (what countries is the product shipped to)?

Include a picture

SIDE 4: QUATERNARY INDUSTRY

How does this industry play a role in the manufacturing and sale of your finished project?

(Marketing, research, inspection etc.)

SIDE 5:

What countries has the product been shipped to? What kind of economy do they have in those countries (market, command, traditional)

SIDE 6:

Summarize the industry process from the natural resource to the finished project.
