

Desertification

Use the links below to access videos about the Colorado River, Aral Sea and Lake Chad. While watching the videos look for the answers to the following guiding questions

1. What is happening to the lake, river or sea?
2. Why is this happening?
3. Is there anything being done to try and fix the problem?

Use the worksheet chart to record your answers.

Watch the following videos on each body of water.

Colorado River:
