

EARLY 21st Century Museum Design

OBJECTIVE:

You must design a museum that reflects life as we know it today. The museum is dedicated to trade with Asia and must house items made in Asia, assembled in Asia or manufactured in Asia. Pretend that you are 300 years in the future looking back at what our lives were like in the early 21st century.

Directions:

___ Name your museum (perhaps after a wealthy 21st century person)

___ Choose a name for at least THREE galleries in your museum

___ Each gallery must represent a category such as clothing, toys, house wares etc.

___ Each gallery must contain at least 3 items that represent the gallery theme

___ Each gallery must be named

___ Draw pictures of each item on your museum map

___ Color your pictures

___ On the Asia map

___ Color and label the country where each item was made

___ Label the country

___ Label the item made there
