

GOVERNMENT CEREAL BOX

Create a cereal box that represents the type of government you choose!!

Research the following aspects of your government.

****CHOOSE THE GOVERNMENT FIRST**

****THEN FIND A COUNTRY THAT HAS THAT FORM OF GOVERNMENT**

Incorporate your research information into a cereal brand! What would your cereal look like? What would it be called? What would you advertise on your cereal box in order to grab people's attention? Think about all of these things while you are creating your cereal brand.

FRONT SIDE:

Name of your cereal

What kind of economy would they have? Market/Command/Traditional/Mixed

Can you find an example of a country today that has your assigned form of government?

Picture of the country

LEFT OR RIGHT SIDE (nutrition facts):

Use CIA website to look up:

GDP/Capita

Life expectancy at birth (total population)

Physician Density

Drinking water source

Literacy Total Population

Infant Mortality Rate

Children under the age of 5 Underweight

BACK SIDE: Create a biography of someone your age that might live there? What do you find on the back of cereal boxes? (games, interesting facts etc.) Create a game or information about a person who might live in the country/government you chose.

What is their quality life like?

Can they read?

How old are they?

Do they have access to a doctor?

Do they go to school? Do they have a job?

Left and Right sides of your cereal box are yours to design freely as long as the two sides pertain to your government!!

STEPS:

STEP 1:

1. Conduct and record all of the research you need. Use the CIA website.

STEP 2:

2. Answer all the questions about the kind of government you are researching

STEP 3:

3. Use your creativity to create and market your cereal box i.e. design, color, presentation etc.

STEP 4:

4. Bring in and build your cereal box! Use an EMPTY cereal box from home to cover with your information!

CHECKLIST:

FRONT SIDE:

- ___ Name of your cereal
- ___ What kind of economy would they have? Market/Command/Traditional/Mixed
- ___ Can you find an example of a country today that has your assigned form of government?
- ___ Picture of the country
- ___ Is your country developing or developed??

LEFT OR RIGHT SIDE (nutrition facts maybe?):

- ___ GDP/Capita
- ___ Life expectancy at birth (total population)
- ___ Physician Density
- ___ Drinking water source
- ___ Literacy Total Population
- ___ Infant Mortality Rate
- ___ Children under the age of 5 Underweight
