

Early Humans Storyboard or Book Creator

You will create a storyboard to represent the evolution of early humans.

You will create 7 boxes for your storyboard.

Each box needs to represent a change in the life of early hominids

MUST be based off of your worksheets and notes

Plan out each box at a time in chronological order

Make sure your last box is the new area of the world your early hominids migrated too.

Draw a picture and create a caption (2-3 sentences) explaining what is happening.

You must include:

1. Early hominins starting in Africa
2. Lifestyle of early hominids in the Paleolithic era
3. The spread of hominids throughout Africa
4. What evolution of larger brains allows early humans to do= 1 example
5. What evolution of larger brains allows early humans to do= 1 example
6. Crossing land bridges or waterways (to leave Africa)
- 6a. Boats taken to different parts of the world (make sure you label the places and the ocean in your storyboard).
7. Early humans living in a new area

Box 1	Box 2	Box 3	Box 4
Box 5	Box 6	Box 7	Box 8 Name: Date: Period:

Step 1: Plan out the storyboard boxes or pages

Step 2: Write the important information you need to include for each box.

Step 3: Use pencil first if creating a storyboard. Any images in book creator must be cited.

Step 4: Make sure the storyboard is in the correct order and complete sentences -using appropriate vocabulary words.
